SUMMARY

Highly motivated and detail-oriented Software Quality Assurance professional with a strong passion for ensuring software reliability and performance. Proficient in manual and automated testing, API testing and test case design. Skilled in defect tracking, test planning, and working with tools like Selenium, Postman and GitHub. Strong problem-solving abilities and a collaborative mindset. Eager to contribute my skills to enhance software quality in a dynamic and forward-thinking company.

EXPERIENCE

- **Karobar Pvt. Ltd.** Lalitpur, Nepal
Software Quality Assurance May 2024 - Present
 - Developed and executed manual test cases for Karobar App (Mobile/Web) ERP software
 - Documented detailed test reports, summaries, and recommendations
 - Conducted thorough testing across different platforms, identifying and resolving compatibility issues
 - Conducted static testing on requirements and UI design, providing detailed feedback for improvement
 - Conducted testing using various testing techniques such as regression, functional, integration, usability, and exploratory testing
 - Automated test cases and created scripts with Selenium for bulk data creation for faster test execution
 - Performed API testing using Postman, and reduced redundant API calls, optimizing web performance
 - Worked closely with developers and cross-functional teams, assisting in bug reproduction and providing insights during daily stand-ups
 - Hands-on experience with SQL for data validation and JMeter for performance testing
 - Hands-on experience with version control system
- **Encoders Inc.** Remote
QA Intern Oct 2023 - March 2024
 - Assisted in testing software applications, ensuring alignment with quality standards
 - Collaborated with the QA team to identify and resolve bugs during the software development lifecycle
 - Gained hands-on experience in test case development and execution under guidance
 - Supported documentation of testing processes and results to enhance team efficiency.

EDUCATION

- **Tribhuvan University, Institute of Science and Technology** Nepal
Bachelor's in Information Technology 2021 - 2025
 - Object Oriented Programming
 - System Analysis and Design
 - Relational DBMS
 - Data Structures and Algorithms
 - **Project:** Facial Recognition based Attendance System

TRAINING

- **QATestLab Training Center** 2023
The Fundamentals of Software Testing
 - Learned test planning, defect tracking, and foundational QA principles

TECHNICAL SKILLS

- **Languages:** Nepali, English, German
- **Framework:** Selenium
- **Tools and Technologies:** Python, Postman, JMeter, Git and GitHub, Nifty Project Management
